The garden is closed for the winter. We eagerly await spring!

Thank you PTO & Miner Community!

We want to take a moment and thank the PTO and community for their donations to our garden program! We have purchased all of the necessary seeds, trays, compost, and grow lights to begin our seedlings at the start of next month. We look forward to a bountiful spring season in the garden!

Interested in donating?

We are in need of gardening shovels and rakes! Reach out to sydney.lawson@foodcorps.org if you would like to donate any used garden tools that you may have on hand.
